

PR & OUTREACH IDEAS

Inovx – Crack The Case

Idea 1

Idea 2

Suspect Board Campaign

Create a fictional mystery on the INOVX Instagram page with 4-5 suspects, each having a different motive, statement, and clue. Introduce one suspect through Stories each day and let students vote on “Who is responsible?” using polls and comments. On the final day, reveal the solution and connect it to the event with: “Enjoyed solving this? Now crack the real case!” followed by the Crack the Case registration link. This creates curiosity, interaction, and anticipation among students

Idea 3

Digital Case Locker

Create a digital “CONFIDENTIAL CASE LOCKER” for the Crack the Case promotion. A link shared through Instagram, WhatsApp, or the INOVX page can open a virtual locker containing clues, puzzles, case files, and hidden information. Students solve a simple clue to unlock the next file, gradually revealing details about the event. The final file can reveal the event date, venue, registration details, and QR/link. To make it more engaging, the first few students who successfully complete the locker can receive a small reward or special recognition. This creates an interactive online experience and builds curiosity before the actual event.
